## Brief History

- Traced back to 600 BC in Athens
- 1638 - first use in America
- 19th Century
- Switched to value
- Adopted uniformity provision
- $20^{\text {th }}$ Century
- State use fell
- Exemptions increase
- Tax Revolts
- 1930s (Great Depression)
- 1978 (Proposition 13)

## Is the Property Tax a Good Tax?

- Stability of revenue
- Mobility of tax base
- Equity
- Vertical
- Horizontal
- Fiscal autonomy
- Related to benefits
- Wealth per student varies
- Fiscal competition
- Fiscal restraint
- Unpopular

Andrew Young School
FISCAL RESEARCH CENTER

## What is the problem?

- Property taxes are too high?
- Large annual increases in assessed value
- Tax increases are too large
- Not fair
- Elderly are forced to sell
- Residential vs. business burden is wrong
- Reduces economic development
- Capital gain is taxed but not realized
$\underset{\text { fiscal research center }}{\text { And }}$

## Two Fundamental Questions

## What should be the:

- Level of property taxes?
- Distribution of burden?

## Two Principles

- Horizontal equity
- Vertical equity

## Alternatives

## 1. Matching Grant

- State matches, say, 50\% of current property tax
- Mandated roll back of property taxes
- State matches increases up to CPI + pop growth
- Local government can add 0.5\% , but not matched
- More than that requires referendum

## 2. School Funding Option

- State funds an amount per student, say \$9,000
- Systems spending less than $\$ 9,000$ would eliminate local taxes.
- Systems spending more than $\$ \mathbf{9 , 0 0 0}$ would cut local taxes, but maintain current spending per student.
- Systems would be guaranteed an increase per student equal to CPI + 0.5\%
- either from the state
- or local tax revenue
- Referendum to exceed the cap, good for 5 years.

## 3. Targeted Tax Credit

## Credit = property taxes in excess of 2\% of income

## Average Credit for by I ncome

| Income Group | Number | Average Credit |
| :--- | ---: | ---: |
| Less than $\$ 10,000$ | 78,292 | $\$ 855$ |
| $\$ 10,000-\$ 19,999$ | 109,455 | $\$ 748$ |
| $\$ 20,000-\$ 29,999$ | 112,178 | $\$ 813$ |
| $\$ 30,000-\$ 49,999$ | 219,125 | $\$ 867$ |
| $\$ 50,000-\$ 74,999$ | 197,172 | $\$ 1,034$ |
| $\$ 75,000-\$ 99,999$ | 106,559 | $\$ 1,142$ |
| $\$ 100,000-\$ 149,999$ | 77,734 | $\$ 1,424$ |
| $\$ 150,000-\$ 199,999$ | 15,381 | $\$ 2,232$ |
| $\$ 200,000-\$ 299,999$ | 37,348 | $\$ 2,464$ |
| $\$ 300,000$ or more | 4,134 | $\$ 1,852$ |
| Total | 957,378 | $\$ 1,045$ |

## THE END

## Thank you
