# Average Real Per Capita County Property Tax Revenues (2011 Dollars)

# Real State Sales Tax Revenues

# Average Real Per Capita County LOST Revenues (2011\$)

## County Govt. Expenditures in GA in 2011

# Average Real Per Capita Spending for Counties Statewide (2000-2010)

## Average Real Per Capita Spending for Counties Atlanta MSA (2000-2010)

# City Govt. Expenditures in GA for 2011

# Average Real Per Capita Spending Trends by Service Area – Cities Over 10,000 Pop

# Average Real Per Capita Spending Trends by Service Area – Cities Over 10,000 Pop (Atlanta MSA)

## Take Away

- GA's economy has never recovered from the loss of manufacturing in the early 2000s.
- The state is now funding its operations at 1993 levels on a real per capita basis.
- The Atlanta region has been hit hard by the real estate collapse of the current recession and this is visible in the decline in property tax digest in the region.
  - The full impact of the recession has not yet been absorbed in the property tax digest: there is likely more fiscal stress to come.
  - On a positive note, it looks like the region has hit the bottom and once the digest has stabilized, there will be some growth going forward.
- In the Atlanta MSA, public safety budgets have flattened on a real per capita basis since 2008, but do not yet fully reflect the economic “reset” that has occurred in the state.
