Georgia Municipal Incorporation and Annexation concerns and Practices in Other States

The process is political.

Authority for granting incorporation varies by state

- General Assembly – FL, NC
- County Commissioners – Miami-Dade County FL, TN, SC, MD
- Review boards/commissions – WA, CA, WI, MN

The process should require input from all affected parties.

- Petition requirements – SC, TN, FL, MD
- Minimum distance requirements from an established municipality – SC, TN, FL, NC
- Impacts to other areas/governments – FL, NC, WA, CA, WI, MN

There is not a formalized coordination of services between county and local governments.

- Provision of municipal services – NC, WI, SC
- Spheres of Influence – NC, CA
- Regional/County growth plans – TN, WA

Boundaries may be arbitrary.

- Boundary requirements.
- Some commissions have the authority to adjust the boundaries.
- Allowed excluded groups the option of joining the incorporated area.

Finances can influence the decision to incorporate or annex unincorporated areas.

- Prohibit creation of islands
- Require provision of more services or more expensive services – SC, NC
- Revenue neutral incorporation – CA, FL, WA
- Tax-base sharing plan - MN

Alternatives to incorporation or annexation.

- Increased local/neighborhood representation to county board of commissioners
- Designate neighborhoods with some planning authority
- Residential improvement districts

Thank You.
